

Milwaukee Forge

Strategic Vision, Mission and Core Values

Vision

To be the premier forging partner by demonstrating superior customer value through an engaged community and an alignment of value added services

Mission

Milwaukee Forge advances forging communities we serve through exceptional customer care, on time delivery and product quality enhanced through a commitment to each other's success while growing our people and our business.

Core Values

Respect - basic building block to build cohesiveness; the minimum requirement for growing our people and committing to their success. We treat each other with dignity and respect; with fair compensation and benefits.

Passion - passion drives resourceful problem solving

Excellence - a notch above doing it right the first time

Safety – "nothing more be said in a manufacturing environment"

Quality - commitment to repeatable, predictable results and conformance to specifications.

Data Driven - quantitative methods to control processes and let the data speak

Fun - today it is more difficult to separate work from play; fun people are engaged.

Forward Thinking – Plan, anticipate what is coming at you...
